SE-170 Appliance

Secure, High-Capacity Branch Networking - Delivering SD-WAN with Fully Integrated Security

SE-170 Description

The SE-170 is a compact gateway designed to extend the iboss Zero Trust SASE platform into small to medium branch offices. It provides seamless integration with iboss' cloud-managed services, enabling secure connectivity and consistent policy enforcement across remote locations. This ensures users and devices remain protected while accessing cloud applications, corporate data, or other branch resources.

Fully managed through the iboss cloud, the SE-170 simplifies IT operations by consolidating networking and security into a single, streamlined solution. With support for ZTNA, SD-WAN, and unified Zero Trust policies, the SE-170 empowers organizations to enhance security, reduce complexity, and modernize their branch connectivity with confidence.

SE-170 Specifications

Physical Specifications	
Form Factor	Desktop
Dimensions (WxDxH)	180mm x 158mm x 33mm (7.2" x 6.32" x 1.32")
Weight	3.68 lbs.
LED	Power / PSU / HDD / Ethernet
Environmental Specifications	
Power Supply	12V/40W Adapter
Operating Environment	Temperature: 0 - 40°C (32 - 104°F), Humidity: 0 - 90% RH
Storage Environment	Temperature: -10 - 70°C (14 - 158°F), Humidity: 5 - 95% RH
Processor Specifications	
CPU	1 x Intel X6413E
Cores / Threads	4C/4T 1.5Ghz (3.0Ghz) – TDP 9W
RAM	16G Non-ECC RAM
Networking Specifications	
Ethernet Ports	4 x 1GbE (RJ45): Dual WAN Support
Performance Specifications	
Throughput	Up to 500 Mbps
